ADDITIONAL INFORMATION

Driving Licence

- **Driving Licence:** AM
- **Driving Licence:** B1
- **Driving Licence:** B

Communication and interpersonal skills

- **Skill of communication** My promotional work has provided me excellent communication skills in assessing and meeting the different needs of customers and in tracking sales. The professional trainings provided by my employer went beyond product knowledge and sales techniques to communicate with customers.

Job skills

● Learning in a self-taught way

Before my developer work I had to spend a lot of time studying and understanding the programming languages. I devoted most of my freetime to self-improvement and I achieved my goal. I got hired for my first developer job where I continued my studies. My primary goal is to master the web development profession at the highest possible level.

● Working independently

In my opinion, the emergence of a problem is an opportunity to learn something new. It has always been important to me to ask for help only when I really need it. Solving problems or finding solutions for demands means success for me.

● Experience in commerce

I have useful knowledge of many fields of webshops thanks to my commercial and e-commercial experiences. I worked as a shop manager assistant, where my primary job was to manage the webshop of the store. I worked as a web developer, where my primary job was to build and improve the webshop of the store.

● Programming skills

- PHP, Laravel, Object-Oriented Programming (OOP),
- Wordpress, WooCommerce, E-Commerce,
- JavaScript, React, jQuery, TypeScript,
- Database and SQL (MySQL), MySQL Workbench,
- HTML, CSS, SASS, SCSS,
- Version Control Systems (GitHub, BitBucket).

● Desire for self-improvement

It has always been important to me to be among the bests in the areas of life that interest me. I am always open to learn new and interesting things and I don't regret devoting my freetime to it.
